

IN THE SPECIFICATION

Please amend the specification to add the following paragraph:

- [0110]**      The following list is a legend for Figs. 2-4:
- 50      transceiver
  - 52      front plate
  - 54      receiving aperture
  - 55      lens
  - 56      laser apertures
  - 58      support beam
  - 60      photodiode
  - 61      background filter
  - 62      laser transmitters
  - 63      field correcting lenses
  - 64      sighting scope
  - 65      CCD sensor
  - 66      rear plate
  - 68      support rods
  - 70      focusing reflector
  - 72      electronics
  - 74      protective enclosure
  - 76      acrylic filter
  - 100      transceiver
  - 110      laser transmitter/laser driver module
  - 111      laser driver circuit
  - 112      DC bias circuit
  - 113      thermoelectric cooler controller

- 114 power amplifier
- 115 laser diode
- 116 lens
- 117 fiber optic segment
- 118 photodiode
- 119 thermoelectric cooler
- 120 receiver module
- 122 reflector
- 123 filter
- 124 photodiode
- 125 preamplifier
- 130 electronics
- 131 signal conditioning electronics
- 132 output signal interface
- 134 input signal interface
- 135 signal conditioning electronics
- 136 splitter
- 140 switching device
- 142 computer
- 143 network interface card
- 144 audio/video interface card
- 146 backup transceiver
